Hi Joe,

Ive attached the letters that DOGGR thinks imply we did grant exemptions. See the information about these formations I pulled together, below.

The 11 formations are listed in Attachment 3 of the MOA, also attached, which you should already have. The formations in the letters are mostly a subset of the 11, but there are a few I have no information about.

I've done a check on the formations/fields in the letters and cross checked against the "Salinity letter", the letter from Doggr to EPA dated March 29, 1982 with the TDS for the non hydrocarbon bearing zones listed in Table 1 of the Primacy Application.

Here is a summary table for your information

<u>Field</u>	<u>Formation</u>	<u>TDS</u>
Kern Front	Santa Margarita	600-2.600
Kern River	Chanac	238-925
Kern River	Santa Margarita	2300
Round Mountain	Walker	1930

Then there are two “project approval letters”

Kern River	Edison	no information, not in Table 1 either
Kern River	Santa Margarita – 600-2600	
	Vedder 7800-16,200	
	Famosa – no information, not in Table 1 either.	

It would seem quite unlikely that an appeal, if made, would have prevailed.

These are the letters that DOGGR came up with to show there was somehow an appeal of our decision to NOT grant an exemption to 4-6 of the 11 aquifers. Of these letters the

These 1983 letters appear to be the same, or similar to, the ones we reviewed yesterday.
